

<b>Type of Contract:</b> permanent contract <b>Workplace:</b> Ecully, France	<b>Beginning of the contract:</b> march 2018 <b>Remuneration:</b> to be defined
---	--

**JOB DESCRIPTION:**

- ⇒ Territorial diagnosis, implementation study, network simulation, ...
- ⇒ In collaboration with the Head of the Studies Department, you will work on missions related to studies of implementation of an innovative public transport system.

**COMPANY DESCRIPTION:**

- ⇒ SUPRAWAYS is an innovative start-up incubated at the EM Business School in Lyon, which is developing a smart transport system.
- ⇒ SUPRAWAYS offers an efficient and environmentally friendly air transport system for passengers and freight.
- ⇒ Website : [www.supraways.com](http://www.supraways.com)

« **Joining us is taking part in the revolution of the urban transport of tomorrow** »

**MISSIONS :**

- ⇒ Realization of feasibility studies for Supras system implementation:
  - territorial diagnosis / mobility / transport,
  - collection and analysis of quantitative and qualitative data of the territories,
  - prospective analysis of travel (for passengers and freight),
  - analysis of the temporal and spatial evolution of displacements,
  - realization of cartography and supports,
  - studies of intermodality and urban integration,
  - definition of stakeholder engagement strategy,
  - study of planning documents,
  - positioning and dimensioning/design of infrastructures,
  - urban and architectural integration of the system,
  - creation of transport networks respecting the challenges of the territory,
  - static and dynamic simulation, micro / meso / macro,
  - costing and analysis of the overall costs of operations.
- ⇒ Monitoring and management of implementation studies in progress;
- ⇒ Public procurement watch, synthesis and responses onto tenders.

You will accompany the Head of the Department in:

- ⇒ Business development: forward-looking actions, preparation of follow-up support files, etc.;
- ⇒ planning of operations and projects; technical coordination of the partners;
- ⇒ Participation in the lists of sites and commercial meetings if necessary;
- ⇒ development of diagnostic tools and procedures to carry out the missions of the company;
- ⇒ establishment of activity monitoring dashboards and indicators necessary for the department organization;
- ⇒ Bibliographic monitoring / benchmarking of new mobility technologies and innovations, and new mobility uses;
- ⇒ Preparation of the budgets of the Department.

#### **YOUR PROFILE:**

With a strong appeal for innovative projects you are ready to invest in a major challenge environment:

- ⇒ control of the regulatory, legal and financial framework, national and international, transport-displacement devices;
  
- ⇒ technical knowledge / skills related to studies, construction and operation of public transit and urban planning. Fluency of the public procurement code is an advantage;
  
- ⇒ Bac +5 level in urban planning, city, mobility, and transport field;
  
- ⇒ 3 years of experience (at least) of project management in a design office in the aforementioned fields;
  
- ⇒ excellent skills in technical English; another language is an advantage;
  
- ⇒ strong control of the Office Pack or Apple equivalent;
  
- ⇒ Excellent skills in Mastery of flow simulation software (mobility), GIS software (QGIS), DAO software (Autocad); Mastering other software is an advantage: Catia type, Robot, MatLab, Solid Thinking, PTV Group, etc.
  
- ⇒ Personal and professional qualities: autonomy, accuracy, responsiveness, excellent writing skills, teamwork, social skills and initiative, ability to integrate in an international and multicultural environment.

We ask you to send us a letter explaining why you want to participate in the Supraways project, what are your motivations and how this project fits you.
